

HIGH SPEED MIXERS

Mixtec – Western Engineering manufacture High Speed Mixers for a variety of industries and applications in a range of sizes from 0.37kW to 150kW and beyond. Each mixer is custom designed and manufactured for your application.

Mixtec – Western Engineering are a 100% NZ owned and operated company that prides itself on quality and on-time delivery. We manufacture mixers in our Auckland factory under licence using technology supplied by Mixtec in South Africa, who are one of the world's leading manufacturers of mixers and agitators.

Mixtec review your mixing process requirements based on tank dimensions, product viscosity, specific gravity and a process description to provide you with a mixing concept and quote for your mixer. All mixers are custom designed by our highly trained mixer design specialists who focus on the mechanical integrity of the mixing components and drive system resulting in reliable and robust solutions. Mixtec has extensive experience in the dairy, pharmaceutical, food, beverage, wine, chemical and water care industries.

Mixtec high speed mixers can be tank mounted as a top, side or bottom entry unit. Alternatively we can supply the mixer with a raise and lower stand for use with mobile tanks. Available with several shaft sealing options including double mechanical seals and rotating caps (oil flingers). Drive options include single and three phase electric motors, flameproof Exd / DIP electric motors and air motors.
